May 2026
Gainesville, FL

LEADERSHIP & INVOLVEMENT

Winter Park High School NJROTC

May 2021 – March 2022

2nd Battalion Commanding Officer

Orlando, FL

- Drafted the first competitive drone-racing blueprint that could be used to replicate a drone-racing competition at schools across the East Coast.
- Commanded a battalion of more than 150 cadets and organized drone-related events attended by 20+ schools from the Southeast.
- Implemented instructor-provided goals to create the first high school drone racing competition, applying industry-level skills to earn flight certification.
- Organized a team of more than 100 students to design and host the Inaugural Drone Racing Event, a 4-part competition to test competitors' ability to apply technical skills.

Volunteer

August 2016 – May 2022

Math Tutor

Orlando, FL

- Tutored over 90 students on the basic concepts of Geometry, in order for them to succeed in class and achieve high grades.
- Identified the principal cause of a student's problem, in order to outline their thinking process and correct underlying mathematical misunderstandings as needed.
- Applied a problem-solving framework to each student's unique case, emphasizing the need for direct communication and case by case solutions.

PROJECTS

Software Developer

January 2023 – Present

- Developed a YouTube Downloader and Audio Conversion program which can download YouTube videos, Shorts, and Clips as MP4, MP3, and Waveform files.
- Programmed a Python application that predicts stock movement by analyzing stock price fluctuations across daily and weekly periods resulting in potential daily returns of 3%.
